introduction

ICICE Al-Noor Academy is a school driven to inculcate Islamic culture in its students and help them become intellectual and independent individuals. Founded in 2015, the school offers its students top notch education that encompasses both the British and Nigerian curriculum.

With a holistic approach to learning, we have a competitive standard regarding teaching and learning Islamic and Western education in the 21st century.

Al-Noor Academy is located in the same premises as the Al-Noor mosque on IBB Way, Wuse II, Abuja. Equipped with state of the art facilities, the school exposes its students to activities that expand their horizons of thinking from the pre-primary level. These activities make pupils creative and help them grow to be independent members of the society.

The school has renowned teachers and competent management who are always ready to work and instill the necessary knowledge in its students to the benefit of the community at large.

Our Vision

Our vision is to be at the forefront of the dissemination of science and Islamic knowledge for the benefit of humanity.

Our Mission

Our mission is "to reform society through an effective, sound moral. life-changing, purposeful education, to stand the test of time and reduce moral decadence of the global village; while producing confident, proactive and solution oriented entrepreneurial alumni, creative enough to find applicable ethical solutions to the challenges of modern life."

Our Motto

Our motto is "**LIGHT UPON LIGHT**" derived from Surat Annoor (The Light), Qur'an chapter 24 verse 35, which is beyond verbal explanation as all the light of the universe emanates from the light of Allah and He alone knows the extent and characteristics of light. Therefore, we want our students to become beacons of light in their generation; intellectually, morally and spiritually. We want them to be outstanding leaders in their prospective professions as representatives of Islam.

Our Ethos

Our service oriented character is inspired by the famous Hadith: "Human beings are all dependents of Allah and the best of Mankind are the most useful to Allah's dependents".

We are aware of the fact that problems are part of life and it is our responsibility to proffer solutions and in the process train a generation of solution oriented citizens who will be agents of positive change wherever they find themselves.

CORE VALUES

INTEGRITY AND WILL TO SUCCEED

POSITIVE ATTITUDE AND ENTREPRENEURSHIP

GOODWILL AND SERVICE TO HUMANITY
